Hi Kevin. Jeffrey would like you to come on June 21. How long should you stay and I'll organize a ticket. [REDACTED]

Hi [REDACTED]

I just want to let you know my schedule as Jeffrey wanted me to start on some path and roads on GSJ. I shall be available to come if needed on the 21 for few days whether it's necessary. The last part of my schematic design is taking me longer than I thought, I 'm almost done, but I'll need the week still.

Best regards,

Kevin.

Hi Jeffrey,

Thank you for the trip It was really helpful to stay on the island once again, in order to precise more the project. Please find attached a visual of the basket on LSG.

- Bismarckia nobilis (blue latan palm) will handle much more wind) you should get rid of the coconut.
- New stone wall will be nicer as all surrounded walls are well shaped. having those boulders makes it too rough today.
- Alamanda flower, should get ok. Just change the one that has trouble to grow.

Regarding GSJ , I'm putting everything together this week (new idea, new locations, details etc...) and I shall send you a file at the end of the week. I'll be available in three weeks to make the first road and some path.

Best regards,

Kevin.
