Very interesting info, i am thinking to try in y house and cut cable.. Will ask James..and get back to you

Thank you,
Bella

thank you so much for letting me know about the AC in 7J...I will alert Andrew...
...very interesting on the HD antenna!...I don't have any problem with it...Bella is the
one with control of the funds! Bella, is this something we need to ask JE about?

Hi

Just heads up for the summer months ahead,,
Apt 7J living room AC unit compressor doesn't work well,, barely turns on,,
Appears only the Fan is running ,, little to No cold air comes out,,
Bedroom AC unit works great,,
Just heads up,,

Thx again,,

PS: for \$69 and BestBuy sells an HD antenna that receives local FREE Local
channels for the TV,, just like the old days of a TV in antenna , I have
one at home and it works great, AppleTV does not have any local
broadcast of news and weather,. Maybe during my next visit I could
install if you approve?

Thx
Larry
