Greetings [REDACTED]

Extensive devastation. The hospital suffered major roof damage, they had to evacuate patients to alternate spots in the height of the storm.

One of the fire stations collapsed, injuring 2 firemen.

The number of fatalities in the Caribbean so far is 8. Not sure if any of those are on STT.

My husband just walked our neighborhood. No electrical poles are standing except the one in our front yard, and it is leaning.

I have not heard from anyone from the STC since yesterday morning.

Lots of flooding downtown from videos we saw on the internet.

Thinking about all of you and hoping you and yours are all ok, inside and safe...praying for not too much damage to be done!

Take care, [REDACTED]
