Yes, you have several more concerts that might be possible...I will keep in our calendar...  
re releasing the tickets, if possible, can you wait a day or two?

Oh no! Well if not this time, maybe next time on 10/15 in Boston or in Mamaroneck on 10/22, or Philadelphia with the Chamber Orchestra on 11/5 or 11/6! :)  
Do you think I should I keep two tickets under his name for this weekend in case, or should I release them?

Hi Charlie...I am thinking it may not work out for Jeffrey to attend after all...but am crossing my fingers...he may decide last minute...I'll keep you posted.

Dear [REDACTED]

Happy Monday! Of course!

Here is the concert

site: <https://www.gardnermuseum.org/calendar/event/charlie-albright-20170917>

It's the first of three concerts I'm giving there this season. It starts at 1:30pm on 9/17/2017 and is an hour-long concert. Should be all through by 2:30pm. I'm playing the Chopin Andante Spianato/Grande Polonaise Brillante, and the Chopin Etudes, Op. 25.

I have 2 tickets I've been saving...if Mr. Epstein can come I'd be honored to have him as my guest! Please let me know if he might be in the area that day~
