Hi [REDACTED]

Just wondering how things have been for you since Irma? We are recovering slowly on St barth, even thought the population helped very much to make things clean again faster. I was also wondering how it ends up with DPNR for the coconut planted to close from the ocean? I guess now there is no more plants too close from the ocean even whether they have grown naturally... Philippe the architect seems really busy so do I , does Jeffrey had a chance to touch base with him?

Best regards,

Kevin.
