[REDACTED]

Now that you have been away at school for two months, you should have a good idea of the expenses you incur. We need you to prepare a written budget proposition for your expenses at school. Keep in mind we are paying for you to have proper room and board at the school and expect you to eat meals in the dining hall at Canterbury. Having food delivered to the school and a Starbuck's drink should be considered a treat. Ordering snacks from your Amazon teen account is okay, but you should be thoughtful to the purchase, and all purchases from Amazon teen will be final approved by me.

Please email your proposition and remember to include school store, snack bar and laundry service at Cbury in addition to how much you would like to propose you have for meal deliveries. Itemize your list and be specific -- budgeting is very important so that you don't overspend past your means and get yourself in debt. This is a life lesson.

Also, please tell me how the Starbucks purchases are made. Do you actually go to Starbucks or does a friend go and then bring you the delivery? I was thinking a Starbucks gift card sent to you each month might be nice. (?). Will that work?

It is high time you start treating both me and your father with respect. You have a 'golden ticket' which we have generously helped you achieve. Be grateful and happy for all the positive opportunities you have been afforded for this academic year at Canterbury.
