Subject: Repatha Injection Training

Nurse Christine can come see you next Wed. or Thursday (Jan. 17 or 18) to give you a lesson for injecting Repatha. However, it is very possible your prescription will not have arrived by then.

Would you still like to schedule the training even if the drug is not here? Christine says she usually waits for the patient to receive the drug, but I told her you travel extensively and may be best to get instruction sooner rather than later. Please advise if OK to schedule the training for next Wed. Jan. 17 or Thurs. Jan. 18.
