I am so sorry if I can't respond right away since I am seeing patients with Dr. Shimony. I am on the phone now with [REDACTED]. It must have been a misunderstanding, they need the **patient, Mr. Epstein**, to give permission for you to set up his appointment. [REDACTED] needs to be called again and choose reimbursement services for Mr. Epstein to give you permission moving forward with his training. I will also be faxing you a form to fill out and for Mr. Epstein to sign. This gives Repatha permission to assist him. Are you free to talk to avoid misunderstandings? Thanks

KK

Hi Kristine.

-I found Erica Peltz so no worries there! :)

-I called [REDACTED] to organize training, but they do not have him registered (which I did) and they tell me you must call them to give me permission to schedule the appointment?! Sounds like silliness to me, but what can I do!? She let me register Jeffrey so when you call give them his Acct # [REDACTED] and tell them [REDACTED] Jeffrey Epstein's personal assistant, may coordinate the training session for him. Once you do this let me know and I will call them back. Would greatly appreciate it.

Thanks,

Lesley

Great thank you. Dr. Shimony states he had recent labs just don't know what his definition of "recent" is. Should be within the past 30 days. Please let me know if any issues and contact by email or office number.

Hi Kristine. Thank you so much for this. Let me find out from Jeffrey if he has lab work that includes cholesterol within past 30 days. I don't think he does but he has gone without me knowing before 💎. I'll call the number below to set up training. Have a good evening. [REDACTED]

Hi Lesley. Before we get started with the process, I need a copy of Mr. Epstein's recent labs including cholesterol within the past 30 days. Please let me know if he does not have one so I can send an rx to get it done. We will try to get approval for his medication to avoid paying out of pocket and the company is willing to provide samples while working on his approval.

Please call [REDACTED] to set up a training session and also \$5 copay card if medication approved.

Please let me know if you have any questions. Thank you

Kristine
