Hi Kristine.

I have found Erica Peltz so no worries there!

I have called REPATHA to organize training, but they do not have him registered and tell me they need your permission to speak to me to

Great thank you. Dr. Shimony states he had recent labs just don't know what his definition of "recent" is. Should be within the past 30 days. Please let me know if any issues and contact by email or office number.

KK

Hi Kristine. Thank you so much for this. Let me find out from Jeffrey if he has lab work that includes cholesterol within past 30 days. I don't think he does but he has gone without me knowing before ♦. I'll call the number below to set up training. Have a good evening. Lesley

Hi Lesley. Before we get started with the process, I need a copy of Mr. Epstein's recent labs including cholesterol within the past 30 days. Please let me know if he does not have one so I can send an rx to get it done. We will try to get approval for his medication to avoid paying out of pocket and the company is willing to provide samples while working on his approval. Please call [REDACTED] to set up a training session and also \$5 copay card if medication approved.

Please let me know if you have any questions. Thank you
Kristine
