Hi Kristine...I received an email from Repatha to "learn how to fill your Repatha prescription"...did Jeffrey finally decide what he wanted to do? He has not been back to me with any news, but certainly doesn't mean he hasn't spoken to Dr. Shimony or you about it! Just wondering if I need to do something!!!!

Morning! Jeffrey has said yes to training tomorrow with Nurse Kristine. Do we know for sure if Jeffrey will be doing one dose a month or two? It should hopefully be one right? The nurse knows Jeffrey won't have the actual drug but says she can train without it. He has still yet to answer RE self pay or insurance.

Good morning. Just following up regarding Mr. Epstein's decision on how to proceed. I believe the nurse is scheduled to come in this week for teaching and ideally it would be great if she can teach and observe his first medication administration. Please let me know so I can prescribe accordingly.

Hi Kristine. Thank you for this! I actually sent jeffrey a note about this earlier but still ha e not heard back from him. He is been in constant meetings himself. I will ask him again however and use your much more well versed paragraph tomorrow morning early! Hope to have an answer

soon. Thanks and  
have a great  
evening. [REDACTED]

I am so sorry if I can't respond right away since I  
am seeing patients with Dr. Shimony. I am on  
the phone now with Repatha. It must have been  
a misunderstanding, they need the **patient, Mr.**  
**Epstein**, to give permission for you to set up his  
appointment. Repatha needs to be called again  
and choose reimbursement services for Mr.

Epstein to give you permission moving forward with his training. I will also be faxing you a form to fill out and for Mr. Epstein to sign. This gives Repatha permission to assist him. Are you free to talk to avoid misunderstandings? Thanks  
KK

Hi Kristine.

-I found Erica Peltz so no worries there! :)  
-I called REPATHA to organize training, but they do not have him registered (which I did) and they tell me you must call them to give me permission to schedule the appointment?!

Sounds like silliness to me, but what can I do!? She let me register Jeffrey so when you call give them his Acct #PP02BW57 and tell them Lesley Groff, Jeffrey Epstein's personal assistant, may coordinate the training session for him. Once you do this let me know and I will call them back. Would greatly appreciate it.

Thanks,

medication

Hi Kristine. Thank you so much for this. Let me find out from Jeffrey if he has lab work that includes cholesterol within past 30 days. I don't think he does but he has gone without me knowing before ♦. I'll call the number below to set up training. Have a good evening. [REDACTED]

[REDACTED] wrote:

Hi [REDACTED] Before we get started with the process, I need a copy of Mr. Epstein's recent labs including cholesterol within the past 30 days. Please let me know if he does not have one so I can send an rx to get it done. We will try to get approval for his medication to avoid paying out of pocket and the company is willing to provide samples while working on his approval.

Please call 1-844-REPATHA to set up a training session and also \$5 copay card if medication approved.

Please let me know if you have any questions. Thank you

Kristine
