Hi [REDACTED],

so true about the 35 second delay while handling an emergency, no pilot really understands how they will address in emergency until it really happens to them most people may get tunnel vision and freeze,,, Captain Sully is exactly correct you need to have a delay when reenacting a real emergency,,,

No apt for me,,, I'll be flying to Savannah Saturday,,

Also Jeffrey said he may need to fly to New York on Friday, I'm sure there's something brewing or an event ,,,you probably are aware already

Thx

at the end when Sully requested they add in the 35 seconds to each live simulation attempt (to LGA and Teterboro) both models resulting in crashes...geez! the tears were coming down and my heart was pounding...I guess my heart was pounding through the entire movie though!!do you need an apartment as well since you will fly in on 3rd ..I don't know where your task on March 5th at "SAV for the G550" is...? I guess NOT NY?

Paris during this

Bill, plan on arriving EWR Monday morn or Sunday,
depending on
