hmmmm...OK

Well, he is in a meeting now and will be kept quite busy until after 2pm now...if he says anything else, I will let you know...I have been cruising along just fine today!

The only thing I can see is whether the third floor access points are online, and they are operating at full capacity.

The firewall has been sending me reports saying whatever is plugged into port 01 of it has been having a hard time getting an address consistently — that may indicate a bad wire. But I have no idea what is plugged into that port at the moment, shouldn't be anything on 2.

Thank you,

HI James...Jeffrey is in NY...he syas his internet seems to be acting funny...I think he is in his office on 2nd floor  
Can you have a look remotely?
