HI James...we for sure need a solution to Jeffrey's contacts...Could you construct an email with your suggestion of how to get Jeffrey's contacts someplace where they can be shared to those Jeffrey wishes to have them so I can suggest to Jeffrey? would be super! [REDACTED]

Hi!

I should definitely clean that contact list down a bit before we infect any one else with it. I'll need to visit one of Lesley's machines to do that (the house when the boss is out of town?).

Should we create an iCloud account for this (like [jeecontacts@icloud.com](mailto:jeecontacts@icloud.com))?

I could move all the contacts to it, and then we add it to [REDACTED] devices, so these contacts would be up-to-date for everyone and separate from your personal contacts.

Thank you,

Hello all!

Jeffrey would like me to have an access to all phone numbers..  
could we arrange that?
