Hello Lesley,

Thank you it's clear ; Our concern about the location is, as we don't know the site, may the existing location of the house is the best according the views and also according the weather conditions, or not...

Also the topographics plans are required to be able to start the preliminary studies and have a good comprehension of the site.

Best regards

Hello Fabrice...in response to your question re other locations on the island: Jeffrey requested i let you know he is 'open to ideas'!

Thanks,
Lesley
