I sent an email to Fabrice stating you are “open to ideas”...is it OK for [REDACTED] to send topos of GSJ to Fabrice?

Dear [REDACTED],

Many thanks for your last Email. Those clarifications give us a better vision on the Main Residence project.

In the way to move forward on the project, we'll need the island topographies plan and associated documentation and information.

With those documents we'll be able to start to work; on a first preliminary master plan as well as first preliminary studies for Main Residence.

Just one more question. Regarding the Main Residence could we suggest to you, other locations on the island, or do we need absolutely to keep the previous one. For the Main Residence do there's also any visuals requirements or recommendation, weather special complementary conditions, etc... Who could be architecturally helpful?

On our side we'll prepare a first proposal for this preliminary work mission for the Main Residence, who'll include:

- Island Master Plan
- Main house furnished plan
- Main House Main Section & Elevations
- 3D View & Rendering

Thank you for your assistance,

Best regards
