Subject: Re: More "solid version"

yes of course! will forward right away!

On Jun 26, 2018, at 10:58 AM, John Heah <[REDACTED]> wrote:

Dear Lesley

This is a more solid version where I have made the side glazed panels solid and these can contain solid shutters and these solid shutters will slide across the remaining glass in event of a hurricane. The concept is now 20% of the glazing is now solid and these will house shutters which will slide across for security.

Please can you show this to Jeffrey to see if he is happier with this approach before we spend time to colour up the drawing.

Best
John
