Hi Rich...I made an error on the June calendar. Jeffrey flew from NY to PB on June 29 so our PB Days and NY Days are off. I have made the correction and include the corrected June calendar. Sorry about that!

**End of June 2018 Counting US Days as US Days (no longer VI Days as of May 31)**  
**Abroad Days as VI Days**

VI Days: 157

US Days: 22

Abroad: 1 (we are now up to the 30days allowed. All Abroad days will now count as Abroad Days not VI Days)

NY Days: 82

PB Days: 86
