Hi James! Hope you are well and enjoying the heat! Ha!  
We are having major Wi-Fi and internet issues at our house. I have an IT guy coming today at 5:30pm. BUT, if he can't fix things I want you on stand by! Are you in NY this week? Might you have a day available? I am hoping this guy today can get us up and running as it's driving me crazy! But just in case- you around? Jeffrey approved you coming if need be. I have a new router, modem and airports all on hand in case it's an issue with these things!! Lesley
