please excuse the late reply!

Due to the fact that we never worked with you guys before, we can not file the Carnet for you and that is something that you would need to do yourself.

Just call the number on their website and they will guide you through the process, you will need to fill out a few documents and then it will be ready to go. Please see their website below:

If you have any further questions, please do not hesitate to contact me.

I received the below from West Coast Shipping re registering a car in Paris, France:

if you are not planning on using the car in France, you do not need to register the car. If your boss is moving to France, he can only drive for 2 weeks

with the license plates. Afterward, he needs to register it. Another option might be issuing a Carnet. If he gets a Carnet, he can stay up to one year with the car in the EU and use his American registration, afterward he needs to ship it back to the US.

I would recommend you to introduce me directly to your boss, so I can explain him this. It is a tricky subject...
