ok thank you! I'm not sure I remember receiving the flower install invoice! sorry for the delay on it...sending you checks in the mail today..  
Look forward to seeing the picture of the sugar maples...we can take care of the other half of tree payment once we figure all this out.

Hello [REDACTED],

There was the may invoice still open for the flower install. I have attached that invoice as well as the july invoices that you just received. The only other invoice still open is the one for the second half of the trees. I am going to text you a picture of a sugar maple. These can be dug this fall mid to late October once they have gone dormate and can be installed right away.
