**Subject:** Service Contract with Standard Oil

I guess we need to pay for a service contract with Standard Oil...

Clapp's scheduled a tune up for Sept. 4, 2018 at \$411.00

It will cost less to get the contract than to do the individual tune up appointment. We do want the equipment to work properly.

I reinstated the service contract under our name. \$286...Tune Up covered under this...done once a year.

Oil deliveries will be paid by Clapp's and account under their name
