Hi Martin. We have more watch orders I will send you toward end of today. I noticed some addresses needed completing also. I will send all to you later today that i have. I still have many people who have not responded. We have given a date of NOV 30th as a deadline for the recipients to place their order. We want to go ahead and order what we have now if at all possible however. Get the ball rolling! Any luck on finding a rep who can place the 5 watch orders for us in Europe?
