-Below from the Paris Apple Rep-they will not accept checks.

the means of payment in AppleStore are the credit card and cash (1000 € max) only . The check are not accepted.

A manual invoicing can be created in Store with the company address.

-Below is from James and the reason we are questioning whether to buy in US or Paris.

Again, the consequence of people getting US watches outside of the US is that they will not be able to activate the cellular connectivity. It will work as expected as long as their paired iPhone is within range.

-I think we send A [REDACTED] to the Apple Store with her credit card and reimburse her. Seems the best solution and easiest. Bella can wire her the money. This being said, [REDACTED] will not be back in Paris until Dec. 14th or so. She is quite capable of purchasing 5 watches and shipping them to the end recipient.

-Sorry to keep going back and forth on this. I am ready to be done with it. I already told the recipients it could take up to 5 weeks to receive their watch.
