Of course Lesley.

I want more than anything else I want this issue be fixed ASAP so I don't have to go back and forward anymore.

But what he said is not a true. I am staying at my apt at nights and was there this morning until noon. I even checked the heat in case If changes after yesterday's repair but I barely elt any heat thought the litter so it is not warm at all. But I will let you know if I see any changes by tomorrow.

Hello [REDACTED]. The heat in your apartment is working well. There was a repair yesterday done on the heating system. The air conditioners where also winterized. The apartment is warm , Tomorrow a new dishwasher is being delivered and installed. We will also look at the ceiling and repairing that.
Let me know if you need anything else.

Thank you Andrew.

Hi Lesley, thanks again for your help!

Hi Andrew and Anthony,
Thank you very much for your coordination in
addressing the heating issue.

Could you please kindly update us from yesterday what exactly is the issue
with the heating system in my apartment?

As of this morning, it still barely works. Cesar was at my apartment on
Sunday and said that there is a need for additional lattice
installation to let the heat to come through, is
that correct?

Best,
[REDACTED]
