There's a standard set of software he has on all the machines (Chrome, Firefox, Skype, Spotify, etc.), so I assume that I'm putting that on there, and if I can harvest data (desktop files, settings & preferences etc) from the GSJ computer, I'll load it as well.

You could ask if he wanted something special for it, but his iMacs are usually fairly generic.

expect to deliver  
tomorrow.  
Did the iMac from  
GSJ arrive?
