[REDACTED]:

I'm trying to get word to some of Larry's close friends.

Larry was at a conference in Antigua and had a bad fall and ended up in surgery yesterday at MGH for two ruptured quad tendons. He is doing well but he has a very long recovery. 3mo. no travel.

I see he is responding to some emails but in and out today given surgery was yesterday.

Happy to give you an update on the phone if you like just call [REDACTED]. Otherwise, I'm sure he would love to hear from you as he has his phone on him.

Julie
