Yes, the road from Mr Wind to the flagpole pool will be first and has already been  
partially graded.

Good day, Mr. Jeffers,  
We have plenty of material here for you to begin on the  
Flagpole Pool Road. This is the owner's first priority.  
We look forward to you beginning this project on  
Tuesday, May 28.

The owner's second priority is the road going toward the gym all the way up  
to the Sun Dial.

His third priority is a small road going from the beach up to the Flagpole.

The owner would like for you to work in this order of priority.

Do you need to return to the island this week to take further measurements or  
organize material in preparation for next week's start  
date?

Please confirm the total amount of all materials needed so that we can  
preemptively procure them for future weeks' projects.

Please be in touch with any questions.

Thank you,

Stephanie Remington

Good Day,  
Mr Epstein chose a color sample labeled #3 for the  
flag road. That sample will use about 21 pounds of  
color per cubic yard of concrete with gray cement. Mr.  
Epstein also mentioned doing two roads in that area,  
one being the "Beach Road". I need assistance and  
confirmation in identifying that road. I also need  
verification as to whether this is an added amount to  
the sample roads or if we will do this one in lieu of the  
Sundial Road. Or if the "Beach Road" is the same as  
the Sundial Road. I will then be able to send the total  
quantities of materials needed along with any changes  
or additions/subtractions.
