The kick plate is just Strips of wood with formica on it. Sylvester can do that in no time I'll try to get it done tomorrow with Sylvester or one of the other carpenters.

I would say maybe two weeks out to start, then two weeks to finish (MC Kitchen, FPP Kitchen, Tiki Kitchen - in that order)

So realistically, kick plates beginning of next week? or when?
considering the new request?

We have 2 carpenters on tiki tile and two carpenters installing 5 Palms windows. The windows should be complete tomorrow, but JE sent instruction today to also build a door and some panels at 5 Palms. Once complete, will shift to Kickplates.

Since this is a priority for Jeffrey, Can we please get an update today on kick plate and installation. ..I'm not

sure who is heading this task. My notes say it should be finished with 'in house' carpenters...
(Rich, this is directed toward LSJ managers...just replying to your mail to keep the flow!)
