Thank you for putting me in touch with Jeffrey and also for sending Caleb's email. We will be reaching out to him to invite him on Big Think.

I've attached some thought starters for Jeffrey based on our conversation yesterday -- in part that contemporary science is undershooting it's potential, big time.

I'd appreciate if you could pass them along to him. If you like, I can also cut and paste them into an email.

Many thanks!  
Victoria
