**Subject:** Re: has JE logged in to the Smart Sheet yet?

Good day [REDACTED]

The SmartSheet doesn't allow me to set up the password for the boss. It will send a verification request to set up the password for the software. Should I do so?

Jermaine, is it possible to set up Jeffrey's account and merely give him the link? Can you go in and use his email address and give it a password (something easy like: 'island' or 'jeffrey') then let me know so I can tell him? I want him to log on and see the progress...

Good evening [REDACTED]

The boss has not logged in as yet. I don't see any entries under his email address.

Just an FYI

if you click the File tab on that is on the same level with the name of the sheet there is an Activity log option. It reports who has logged in and what modifications were made. Let me know if you have any problems finding it. Hope this helps.

Hi Jermaine...can you tell if Jeffrey has ever logged in to the Smart Sheet? I am wondering if he has set himself up with a password...can you tell on your end?
