Subject: [cdm-2015] Few Oral path questions

These are the questions I got over the weekend!
Good morning guys!

:)

Good Morning,

1. Dr. Yoon didn't have time to cover psuedocyts so that will not be on the exam this year. (We will do it in the third year course) 2. Dr. Marder did not want those slides posted because of the pics etc.
(All of Dr. Marders lecture questions are from the slides that were posted) 3. You are not responsible for any #'s or % but need to know demographics - ie which lesions are more common in males, females, African Americans, young adults, older adults etc.
