Hi Penn. could your guys make a wood panel to fit in the space above the fridges in 8H, 11B and 2G to cover where you took out the upper cabinet? Thanks. Also, Karyna said the electrician was supposed to come to 8H today at 10am fix an overhead light that wasn't working. He hasn't shown yet. Do you know anything about this? Could you have the electrician come ASAP to fix this today. Thanks
