**Subject:** Acrylic mirror for 5 Palms

Hey guys.. I would like to get this mirror ordered for 5 Palms outside =all. Arran gave me the measurement of the wall as being 32' wide x 21' =igh, thus we would need 672 sq. ft of mirror. I've just spoken to =omeone from this company: <http://www.dullesglassandmirror.com/glassless-mirrors-plexiglass.asp> and she told me that they can do a maximum size acrylic mirror sheet of =6"x48". They say their mirror is OK for outside application. They also =ell the adhesive and J Bars for installing. The only thing that =oncerns me about using J Bars is that they will rust outside. I'm not =ure how this should be installed? What do you think about ordering from =ere? Should I have them put a quote together for the amount we need? Sorry.. this whole thing confuses me. not good in the construction side =f things...
