Hi girls,

Does anybody know where is JE's big laptop, when we were packing for Paris t=ip he said the big laptop and big ipad were left on the island. I found the=ipad, but don't see the laptop..

One more thing: all the chargers and cords marked as "black bag" shoul= stay there(as there are spare chargers on all the properties), or if you u=e them put it back when you leave please. Otherwise you'll keep bringing th= spare chargers from the properties back to NY and I kept buying new ones.<=r> Thank you.
