No, I don't have any. I do remember seeing them on the table the morning when we were leaving, not sure how many of them though.

Hey Karyna...by any chance do you know what might have happened to the wristbands JE had on the dining room table? They look like they are made of rubber and were in their original packaging made of clear plastic...the bands count how many steps you take in a day...did you see them? They are no longer on the DR table and Jeffrey wants to send one to somebody...just thought I would check to see if you might know anything?...

Thanks,
