**Subject:** Towel Bar and cabinet light and glass shelves

Towel bars:

These 3 are my favorite. I'm leaning towards the 3rd one because it's a bit longer; 17". The others are only 14". I'm not sure what size will fit in the space?

You want to make sure it's big enough for a bath towel so fit on I think without sliding off. Thoughts?

Over=cabinet lights:

I think this one is my fav. Do you concur?

Glass shelves:

When look at the photos of the bathroom, everything looks so clean and sleek. I feel like glass and chrome shelves might be better than the sleek wooden ones. I'm not sure the wooden ones are wide enough. I think the shelves need to be wider than the toilet.
