Im making attempts to get someone there in the next day or two =or inspection but I'm not sure if I can turn that around in such a =ight time frame. What I would like to do is send an =nstallation crew back on Monday to complete the job. The =otos you provided gave me ample information to judge what needs to be =ddressed and I will make sure they have the proper tools and materials =o do so. I will keep you posted on getting someone there for =nspection but lets plan on completing the job =n Monday either way. Please let me know f this =orks for you as I will have Bernie, installation manager, call you to =onfirm.

Thank you
