Hi [REDACTED],

On of the issues that we have is that the stem keeps =ending or braking and everyone feels that this is because the wheels =re to small for the weight, you will see more of the wheel, but given =ow many we go thru!!! Clearly these will be stronger but it will =ot be so easy to replace if they keep breaking

K

FYI - fire scare or something was at Tropical, hence rug extra =ill be picked up late today

Hi [REDACTED], just confirming the size...the 60mm has a wheel diameter =f 2.36" and the 50mm has a wheel diameter of 1.97". Just confirming you =ant them to be larger than the existing and not the same size?

Hi [REDACTED]

Grip Neck Stem is the way to go

Existing are 2 inches hence would go for 60 mm
