Yes. There are quite a few small ones around the property but this is the main one. I think we are pretty well outfitted. I have attached the description. It's a little tough to read, but the list is fairly comprehensive.

Hi Step=anie,

I am also wondering if you have a complete emergency kit, besides regular medications that we have spoken about?

Thanks,
Karyna.

Hi Karyna;

We will go through the medical kits here on the island and see what we are starting with. So far we have found 4 oxygen tanks--all empty, so we will look into getting those filled on island. I think long-term another two defibrillators would be a nice addition, so that one could be kept at the gym, main compound and captains office. We will get back to you after we have had a chance to review the current inventory.

Please let us know if you have any ideas!

Best Regards,

Roy & Stephanie
