Hi Andrew,

I have purchased a new AC unit with higher BTUs for my living room. I have=it in my apt and was wondering if someone might be available to come instal= it for me this week? Also, I am having a new radiator cover for my living room fabricated by a contractor who is asking for information to prepare the i=surance certificate if you can pls let me know what I need to provide him w=th.

I also think there is something wrong with the lights i= my kitchen. There are small lights under the kitchen cabinets which won't t=rn on. I've changed the bulbs, but it does not help, so I think there must b= a short or something. Not sure if there is someone who could have a look a= that as well?

Thank you!
