Hi Les,

I am not sure what to do =ith this bottle in the fridge (the note asks to give it █████) - I =now that JE doesn't encourage having alcohol at his properties.

The guests left the sink full of water with =he dishes. They also left two bags of trash at the entrance and one (a =really smelly one) in the kitchen. I cleaned it up right away- but the =mell remained here for while (I guess there was some rotten food or =omething smelly, the flies were already inside). I believe they didn't =ean it in a bad way, but it only takes a few minutes to clean these =hings up and the smell can stay for a while.

Sorry to bother you with this - I respect how important for =E (and for all of us) is to keep the apartments clean!
