Hi ███

We have decided to try using pages instead of basecamp for now, since we =ll have it installed (it's best to have it on all your apple devices, =hat way you can easily access it at any time).

When you create a new document click Share---> Share link via =cloud--->Email. Then email it to all of us, that way everyone gets =ccess to the document and after that anybody can edit it and we all can =ee the latest updated version at any time.

Thanks.=?xml version=.0" encoding=TF-8"?> <!DOCTYPE plist PUBLIC "-//Apple//DTD PLIST 1.0//EN"
