Thank you Eva! I could not possibly wish for any better treatment for her! You have been so kind to us!

About Dr. Fasano, I think she knows because you were with us [REDACTED], but we never really spoke about it with her.

Good

I will put it in my calendar and will let you know that day if I can make it.

I am so happy she is with Kolker.

Fasano knows that we are very good friends right?

Hi Eva,

I wanted to give you an updated appointment time for [REDACTED] in case you would still like to come with (only if it is convenient for you!). She now has a pre-op appointment with Dr. Kolker on Monday March 2nd at 11:15am.

And she is going to see Dr. Fassano on Friday, February 27th at 11:40am for the medical clearance, since Dr. Fassano is off the week after.

Once again thank you very much for all your help!

Karyna.

Hi Karyna,

I spoke to Dr. =olker's office. It's totally fine for your mom to =o in and do her pre-op a week before surgery. Please email or =all Jillian ([REDACTED] > / [REDACTED] [REDACTED]) directly =o set up the new appointment. Important to remember is that two =eeks before surgery she cannot take any NSAIDs (that includes Motrin, =dvil and any other anti-inflammatory drugs), as well as aspirin of =ourse or any other blood thinners, including fish oil.

To =eschedule the Dr. Fassano appointment just email or call Melissa =ellin [REDACTED]

This =hould be all you need. Once surgery is done she needs to stay =ere for at least two weeks before she can go back.

Eva
