Great! The address is:

Brice =ordon

[REDACTED]

Fed Ex account =umber is: 114420816

I have attached a photo of =he wall we will be using to cover in the mirror. I have updated, more =xact measurements of this wall which are:

32' 1.5" =ide

20' 9" tall

Notches are 38" wide by 16 " =igh

Please note, the measurements for the 2 =notches" at the top which I will also need to add to our order 2 pieces =mirror for these. Can you please suggest the best sizing for the =anel s using these updated measurements?

Also, the =lient is asking me to order 100 additional square feet of mirror "just =n case".

Do you have a photo of the J Channels and J =ars which you could send me? The wall is made of concrete with =synthetic coating and I'm wondering which application method for this =ype of wall you think would be best; adhesive, or the J =annels/bars?

Thanks for all your =elp!
