I do n=t have another number for Danny but will follow up with him..

The tub reglazing is around \$425. Do you want full=sliding doors on the tub or similar to the one we did in 2G
8H - do you mean the saddle or the jamb? Is 8H avai=able to start work ?

For 10N and 4M=- what tiles/plan do yo have for the bathroom. My recommendation is g= look at 4H - the bathroom is being redone now - and I can start with=similar tiles, hardware etc as I am using there for these units right away.=span>

do you have an office number for Danny? I keep trying his=cell and it just goes straight to voicemail.
thanks

We do reglaze the tubs and it works well. For 10F and 10C and 8H - let me know exactly what you will be doing in the renovation. I do have Penn available and as long as we are clear upfront on the scope of work it can be done immediately. Next week Penn will have guys available and would be able to start on 8H (but again, you really need to be clear and have all materials prior to starting).

The glass guy is Danny a [REDACTED]

Hi Anthony,

JE would like glass shower doors put on the tub of 8H. He seems to think there is a door which would be mirrored on the outside, but it will be able to see through the glass from the inside of the tub.

Do you have a shower door company you use that I could speak to about it? Also, I know you mentioned you can refinish the old tubs that are there. Is that something easily done? Do they just spray a new protective coating on it? I'd like to have it done to 8H and 10F tubs
