Something is definitely strange. None of Lesley's emails showed up on my phone during the day, until I typed in her name in search just now and then all of them appeared as new emails...

If they were sent during the time Google had blocked your phone, they will be delayed and deliver the next time your phone's Mail.app is opened & catches up.

If she's not getting these messages for example, it's not related and will require further exploration (might be on the iCloud side, for example).

Karyna says she has not been receiving my emails...I just looked and have been sending to her iCloud account...I have no idea if this is related to my issue with gmail or a coincidence ?
