JE wants to see =hite wood sample with a high gloss finish. the workers can apply it to =he existing sample today. Is the sample at 301 now? Can I have Karyna =ive to the workers in 8H and ask them to apply the high gloss? Maybe =hey could do the high gloss on half of the sample this morning and =aybe it would still be ready for you to bring with you to paris if it's =ry. that would be good. anyways, let me know if karyna can give sample =irst thing this morning if it's at =01

Good morning =olette,

I know your guys are =tarting the work in 8H today. The owner of the =br> apt is now debating the =country White with a high gloss finish instead =br> of satin. Is it possible to =et a sample of country white with high
