Sarah</=>

<=p>

Please let me know the st=tus of the latest proofs. Not too sure if this is going to be killed=or if we will be moving forward.

<=p>

Thank You

Steve</=>

Hi Steve.. I've just =ploaded another version of the same photo to your FTP site. I've increased=the contrast in the photo to make the black parts darker. My boss wants th= black areas to be really black. He's comparing them to the print I made which was on a matte paper, so of cours= black is going to look blacker on the matte paper since it's more absorbe=t. Anyways, can we do a proof with the new photo? The photo is called 71st=ining1black.jpg Thanks..
