Evening Bella

I have located Aircare Access FAK #235074 & EMK #224280 still tagged with expired tags and
meds

Located the plastic bags of new meds, with the new tags, have disposed of all expired items, restocked with
new, noting there will need to be a restock 11/18. I will make note of this 10/18 - reminder

The Defibrillator is in bad shape - old model. We should order a new unit

We should also order a FAK Med Kit for GSJ since there is nothing on site. JE confirmed he would
want a Defibrillator on SJ also

I located x 3 of the old Medaire kits which I will dispose of

Will review all of this next week

Thanks

Warmest regards

Karen

Anna and Karen,

Please let us know when medical kits found and confirm that old medication was replaced with new.

Thank you,
