Good Morning Karyna

Evelyn=(as completed work on all the boats, outside furniture etc) was on site th=s morning to review kitchen banquette.

16 yds for bolsters

=div>32 yds for main fabric

Extra fabric will be required if a st=ipe or repeat pattern is used

She will be install=ng new foam core and batting on all sections Once fabric is on s=te we will start moving sections to be completed, working on the plan that=there would always be somewhere to seat throughout the project. The entire=project taking 4 to 6 weeks

I also asked Tiffany =o come and look at the project (this is the person I have used in the past= since the hurricanes she no longer is doing custom work, but wanted a 2nd=opinion, given there are very few people doing custom work on island. She =ad a few suggestions about the brand of material to be used for the core a=d how to construct the higher section on the cabinet side, which Evelyn ha= taken on.

Both did suggest that inte=ior Sunbrella would be a excellent choice of fabric If you=require any further information please let me know Warmest=regards Karen
